

Experience

Frontend Developer, Intern

Huma Volve | Oct 2025 - Nov 2025

- Contributed to a 5-member frontend team to deliver **2 full-stack projects** within a 4-week timeline.
- Collaborated with backend and UI/UX teams to align requirements and ensure smooth workflow and clear **communication**.
- Delivered **4 frontend-focused presentations** attended by 20+ developers.

Frontend Developer, Intern

Eyouth | Sep 2025 - Dec 2025

- Participated in a national freelancing initiative focused on digital skills and client engagement. Managed real client projects from proposal to delivery.
- Applied to 20+ gigs, received 5 client offers, and **delivered 3 projects** with 100% satisfaction through consistent communication and professionalism.

Mobile UI Developer, Intern

Giza Systems | Sep 2025 - Oct 2025

- Developed cross-platform mobile apps using React Native following **agile** development practices.
- Integrated **REST APIs** to reduce manual data entry by 40% and improve responsiveness by 20%.

Projects

Cure (Full-stack Team Project)

- Built key UI modules** for a doctor-booking web platform (doctor profiles, reviews, and real-time notifications).
- Integrated and optimized API data flow with React Query, and Redux, cutting page load times by 40%.
- Implemented a map-based doctor locator using external **RESTful APIs**, delivering accurate nearby-doctor results and improving the booking process efficiency.

Tech: React.js, TypeScript, Tailwind, React Query.
